

What is the Aerospace Career Exploration Academy?

It's an opportunity to explore aviation careers! Actually fly an airplane, tour an FAA control tower and a Radar Approach Control Facility; see airlines in action; and operate an aircraft simulator. You will tour the Lincoln Municipal Airport to learn what it is like to work on a large airfield. A visit to the Strategic Air & Space Museum and selected facilities at Offutt Air Force Base are also planned. These activities and much more await you during this exciting week. You will be staying at the Platte River State Park located midway between Lincoln and Omaha.

If you would like a break from the ordinary summer time activities and are interested in being a part of a week long adventure in exploring aerospace related careers, the ACE Academy is for you!

(ACE attendance can satisfy the Boy Scouts of America Aviation Merit badge requirements)

2006
AEROSPACE
CAREER
EXPLORATION
ACADEMY

Have you considered what your future career will be? For every two pilots flying a jet airliner, there are approximately 10,000 people who have a key role in getting that airliner in the air and back on the runway safely.

The **Aviation Career Exploration (ACE) Academy** is your opportunity to learn about the many exciting and rewarding career areas in aviation!

The ACE Academy is designed as a week of learning opportunities for students age 13 through 17. As an ACE Academy student, you will explore a wide variety of aviation careers and experience first hand the thrill of piloting an airplane on a cross country flight.

Who: Boys & Girls (age 13 - 17)

When: July 9 – July 14

Tuition: \$175.00 per student (includes all meals, lodging and camp related activities)

To Apply: Complete the registration form below and return it with a check for \$175.00 (payable to ACE Academy). An ACE Academy package will then be forwarded to you with forms that need to be completed and returned as soon as possible to insure your reservation. ***Enrollment is limited to the first 25 applicants.***
